

# Creating a QR code for my Just Giving page

information from Just Giving.com

## What is a QR code?

It is a barcode for a website. When you point your phone's camera at it, it scans the barcode and opens up a website, making life easy!

## How do I access my fundraising page QR code?

If your fundraising page URL starts with [www.justgiving.com/fundraising/](http://www.justgiving.com/fundraising/) add a '/qrcode/' at the end of the URL in your address bar – your page's unique QR code will then appear.

If your fundraising page URL starts with [www.justgiving.com/page/](http://www.justgiving.com/page/) follow these steps to find your QR code:

1. Log in to your JustGiving account and go to your page
2. Click 'Edit your page' in the top-left corner of screen
3. Click on the 'Share' tab on the left of your screen
4. Select the QR symbol (the last symbol on the right)

like this

## What do I do with it?

Screenshot it on your phone or your computer, then add it to your posters or signs so supporters can access your page in just a camera hover and click.
